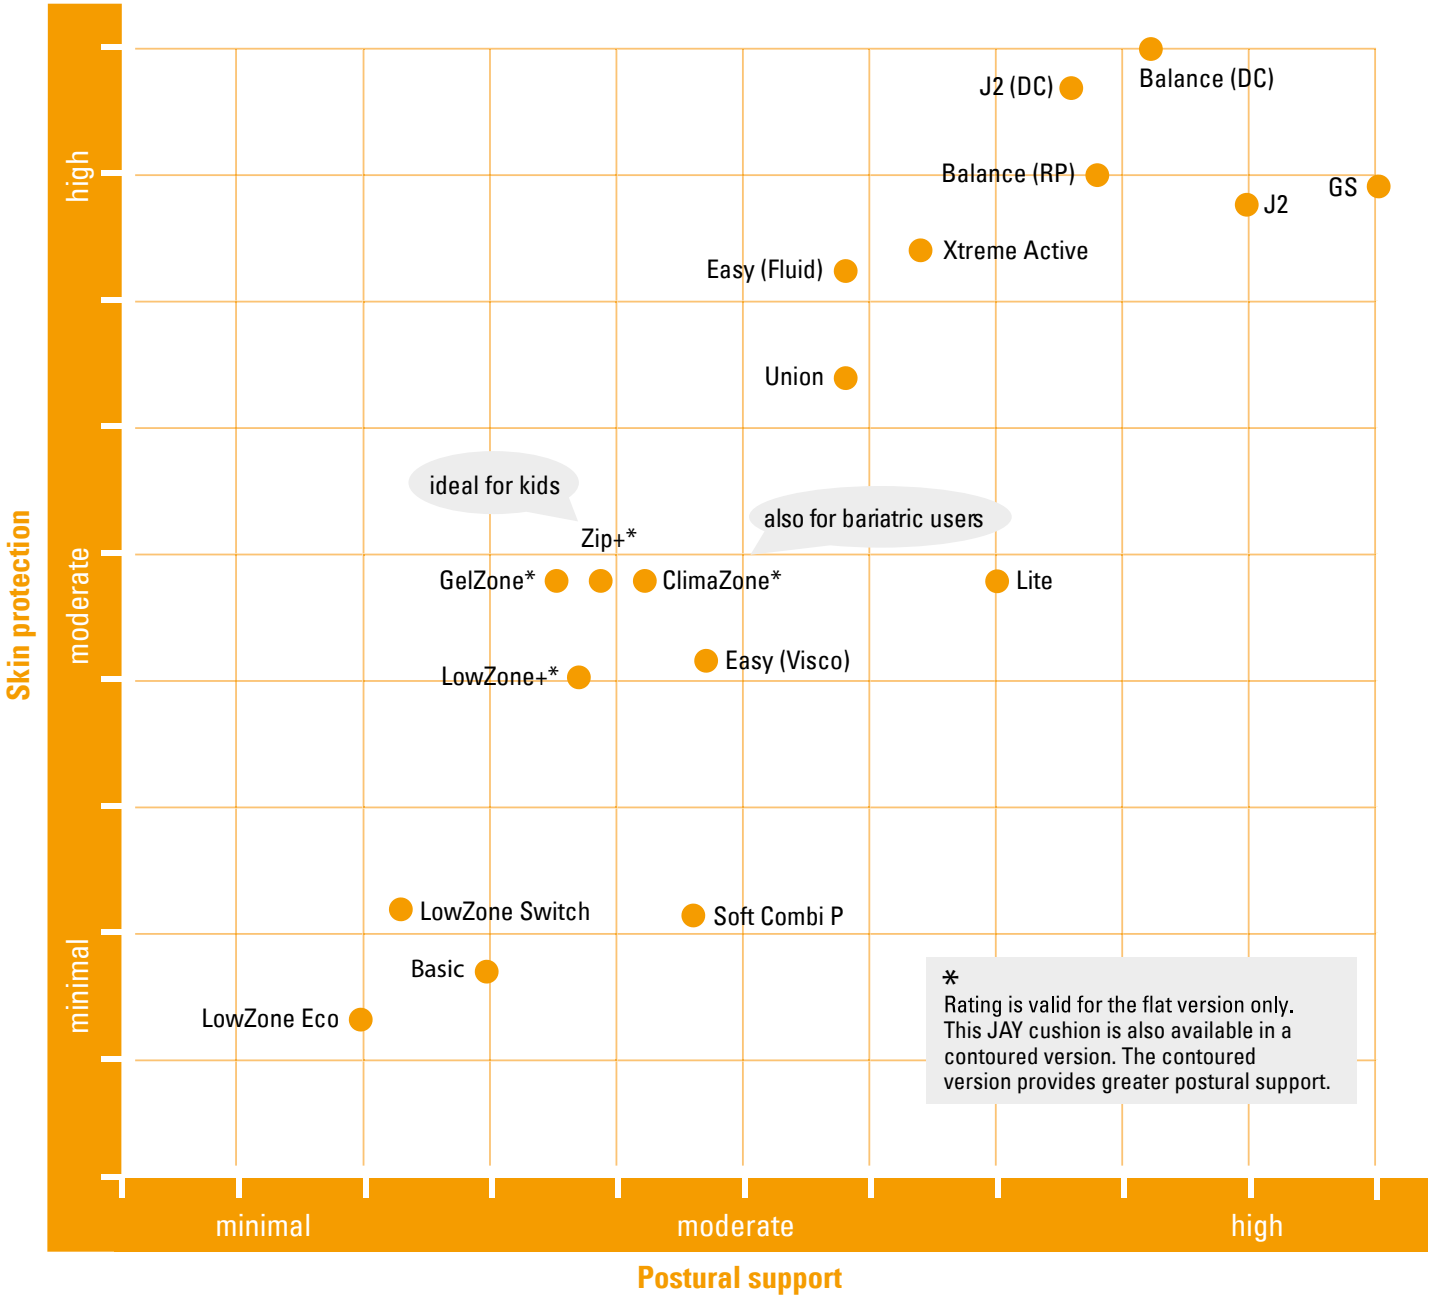
JAY Cushion range



The demands on a seat cushion are as different as people are individual and compromises in clinical use are not acceptable. For this reason, our JAY portfolio offers tailored seating solutions spanning the broad continuum of clinical needs, while maintaining clinical efficacy. All of our JAY cushions combine skin protection with effective postural support and ease of use to the highest degree.

DISCLAIMER: FOR PROFESSIONAL USE ONLY.
Sunrise Medical strongly recommends that a clinician, such as a doctor or therapist experienced in seating and positioning, be consulted to determine which cushion and/or back is appropriate for the users' specific needs to prevent injury. Cushions, backs, and positioning supports should only be installed by an authorized Sunrise Medical dealer.
